HOLLIDAYSBURG AREA SCHOOL DISTRICT BASIC EDUCATION FUNDING

BASIC EDUCATION FUNDING

- Act 51 of 2014 created the Basic Education Funding Commission
- They held 15 public hearings in 2014 and 2015; taking testimony from 110 individuals
- They worked with the IFO to conduct a survey of 125 SDs to determine costs for various factors that became the basis for the weights in the BEF formula
- The Commission issued its final report and recommendations in June 2015
- ■The new formula went into effect for 2015-16

IMPORTANT NOTES ON THE BEF FORMULA

- The formula only distributes "new" funds—BEF appropriated beginning in 2015-16
- Formula is designed to direct resources to districts that need them the most (growing districts, high poverty, high ELL, high charter school costs)
- Other factors are designed to address district geographic and fiscal capacity issues
- Formula is dynamic and distribution will respond to changing district demographics (new funds are redistributed through the formula each year)
- The formula is factor-specific; it does not distribute new dollars in the same way to all urban, suburban and rural districts

STATE FUNDING AND LOCAL FUNDING SHARES: IF ONE SHARE DOES NOT LIFT, THE OTHER CANNOT BALANCE

Local share lever is the only one available to school boards, and it is limited not just by Act I, but by the actual Board Authority as measured by control of the total budget.

The tortoise versus the hare (with Act I, there is no 'hare' option if needed).

One side either lifts along the way, or it does not. One is a choice, and the other is a choice made for you.
